

Understanding your energy requirements to optimise best value and sustainability

Make your energy journey simple with our smarter approach to procurement and energy management services.

We have vast amounts of experience working with education providers.

Dukefield Energy are the sole provider on Crescent Purchasing Consortium's Utilities Supplies and Services Framework which is recommended by the Department for Education.

We work with Schools, Academies, Multi-Academy Trusts, Schools, Colleges and Universities to secure the best value for their energy requirements. A range of different contract options are available to suit any organisation's varying needs, including Fully Fixed, Energy Only, Flexible and Basket contracts.

The Framework offers organisations the following:

- A Public Contracts Regulations (PCR 2015) compliant route to market.
- Cost savings, Dukefield Energy have collectively saved CPC members over £3.6 million pounds with their power and gas contracts in the last 2 years.
- Multi-supplier competition to ensure the best value and most competitive quotations.
- All the tendering work is carried out on behalf of CPC members from end-to-end.
- All quotations are provided for free on a no-obligation basis.
- You can preview the quotations prior to commitment.
- Dukefield Energy constantly monitor market changes and trends to support you with insight regarding the best time to buy.
- Advice and support on the best contract options for your organisation.
- Added value services at no extra cost including – bill validation, energy usage reporting, supplier and query management.
- Dedicated Senior Account Manager support.

**Helping
customers
for over**

**20
years**

“Dukefield Energy undertook a compliant multi-competitive tender for all of Star Academies’ gas and power supplies. For the individual Academies it would be challenging and time consuming to keep on top of everything energy related. As a busy Academy Trust, it was important to find an energy consultant with an excellent reputation, was procurement regulations compliant and had the capabilities to manage all aspects of the Trust’s energy needs. The service that Dukefield Energy have provided Star academies has been second to none. At all stages, the team and dedicated Account Manager at Dukefield Energy have been on hand to manage the portfolio and have kept us fully informed and updated. As well as this, Dukefield Energy have provided central bill validation, showing billed usage on a site-by-site basis and also showing graphical analysis of this usage. They have then confirmed the bills are correct before anything gets paid. This has fully supported the schools in managing their usage and budgets. Dukefield Energy have saved the Trust over £275,000 and continue to support us with all of our energy requirements.”
